DEBITS AND CREDITS

1958 has been a wonderful year for us in many ways. Very recently we decided that our glad operations had reached the point where they required our full attention -- consequently this is now our sole occupation.

The farm we are now using is ideally suited for the growing of glads. Basically it is a sandy soil but for years it has been used as a truck farm and constant enrichment has brought it to its present state of productivity. In spite of a late, cold, wet season, we were able to harvest an outstanding crop of bulbs. All our bulbs this past season were treated prior to planting and washed when dug.

Our 1958 introductions performed even better than we had hoped. We cross our fingers each year and pray that one of our introductions will make the large flowered symposium Committee's list of the 10 highest rated introductions for that year -- so far we haven't missed. In 1955 there was Lorelei; in '56, Golden Palomino; in '57, Temptress; and in '58 there were two, Kings Ransom and Salmon Crinkles. In addition, one of our miniature introductions, Parfait, undoubtedly was the biggest winner among all the 1958 introductions -- in addition to at least half a dozen miniature Championships, it was grand champion as well as second day champion for Dr. John R. Kieth of Anna, Ill., at the Kentucky State show.

We are confident that our 1959 introductions are the finest group we have ever offered. We consider each of our five miniature introductions outstanding. Of the five only Domino lacks an excellent show record and you can take our word for it, that the only reason is because it has always bloomed out before the shows. We don't know of any miniature that makes a more precise spike, and when planted to hit the shows, it will be a big winner. Our larger flowered introductions lack long records only because they have not been shown. We cut any number of spikes of both Cattleya and Bull Market that were of grand champion caliber. Beautiblend will be a definite contender in its division.

It's sort of fun looking a little to the future each year. We expect in 1959 to bloom a very pure lavender with a white throat in fair quantity for the first time -- from what we've seen so far it should become the top commercial in this color. We also have a deep golden yellow from one of Larus' crosses that appears to have everything. In the miniature size we are bringing along a heavily ruffled pure pink with a clean white throat. This one was shown twice this past season; at Mt. Kisco it scored an "A", and at the Long Island show it won the American Home award in very stiff competition. We hope to have all three of these ready no later than 1961 -- possibly earlier.

A late starter to our list of 1959 introductions is Myron Lacey's Snow Garland. We purchased part of the stock of this variety in the Spring of 1958. From what we've seen it should make a really top notch commercial. It just may be the white for which we've been looking. We have a very nice stock of Snow Garland and as a special bonus over and above the usual extras and over count, we will include a medium size bulb with each order of \$15 or more.

Regarding extras -- honestly, we like to include them -- our problem is the ever increasing postal rates. If you'll include enough to cover the postage, we'll make it well worth your while in the extra department.

Where the each price is given, 10 bulbs may be ordered for the price of 8.

1959 INTRODUCTIONS

BINGO (Summerville '59) 250

85 Days

Bingo opens 8 3" florets in perfect placement on a perfect miniature type spike. The color is light to medium red with just a little rose in it and a hairline edging around the petals. The texture is good and it is nicely ruffled. Propagation is extraordinary, and, health is excellent. Here is a glad that combines miniature beauty and usefulness with an ability to compete favorably on the show table -- the fact that Bingo will compete with Zig-Zag doesn't worry us at all.

In 1956 Bingo was miniature champion as well as best miniature seedling at the Eastern International at Binghamton -- this was the first spike ever to bloom. It was not shown at all in 1957 but in 1958, a 3 spike seedling entry at the Eastern New York show at Mt. Kisco was rated "A."

L or M - \$2.00

1 Bulb & 10 Bblts - \$4.00

10 S. & 100 Bblts - \$25.00

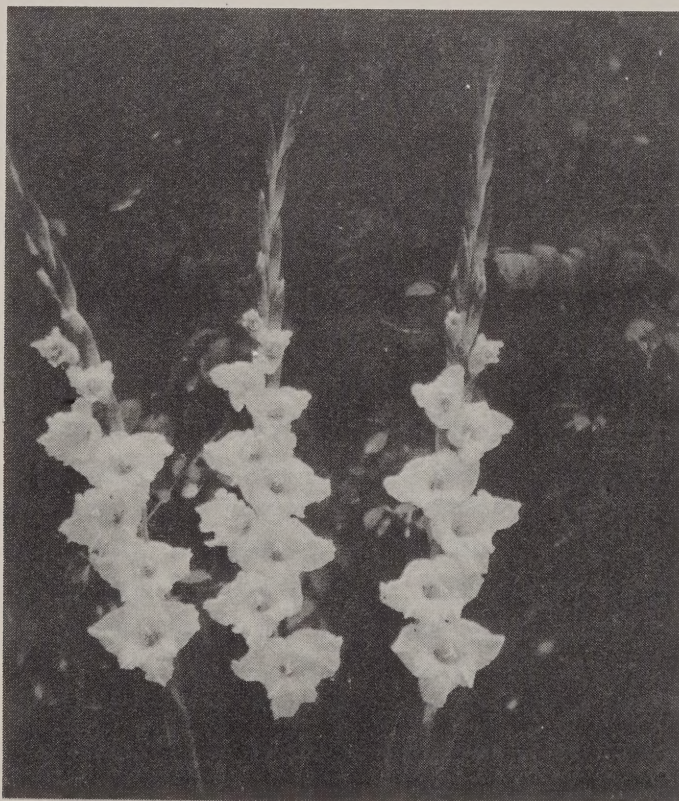

CAMELOT (Larus '59) 244

Early

A medium deep pink shading to a light yellowthroat with an inconspicuous dotted deep pink blotch. The 3"-3 1/4" florets are ruffled and placement is excellent. Height 45" to 52", heads run 22" to 25" with 19 to 22 buds and 7 to 9 open. Bulb-let production and germination very good.

Camelot was approved for introduction by the NAGC Trial Committee in 1957 -- the first miniature ever to re-

ceive this approval. We feel it is our finest miniature introduction to date. It is a perfect exhibition type and has beauty and charm in addition.

Camelot

Show record:

- 1956 Seedling Champ -- South Jersey
- Miniature Champ -- South Jersey
- Best Miniature Seedling -- NEGS: Boston
- 1957 Best Miniature Seedling -- South Jersey
- Miniature Champ -- South Jersey
- American Home Award -- N. J. State Show
- 1958 Seedling Champ -- Mt. View, New Jersey
- Miniature Champ -- Mt. View, New Jersey

1 Bulb & 10 Bblts - \$2.50

10 M or S & 100 Bblts - \$15.00

FRILLS (Larus '59) 214

Early

Very clean light yellow with deep yellow throat petals. Opens 5 to 7 heavily ruffled florets on a head of 18" to 23" with 18 to 21 buds. Florets are of heavy substance and exquisitely formed. We know of no yellow miniature in commerce that has anywhere near as beautiful florets individually. A wonderful decorative glad and a good show variety as well.

Show Record:

- 1956 -- Award of Merit -- Western Mass.
- 1957 -- American Home Award -- Long Island
- 1958 -- Award of Merit -- Western Mass.
- Seedling Champ -- Western Mass.
- Miniature Champ -- Western Mass.

Any size - \$1.00

1 Bulb & 10 Bblts - \$2.50

100 Bblts - \$10.00

DOMINO (Larus '59) 201

Very Early

Pale creamy white with a cream throat on which there is a very attractive dotted medium rose blotch. Florets are wide open, round, ruffled and needle point. Makes very precise spikes with 7 to 9 of its 18 to 22 buds opening at once. Head runs 21" to 24". Stands 45" to 52" in the field. Has always bloomed out before the first show, but we assure you it will win when timed properly.

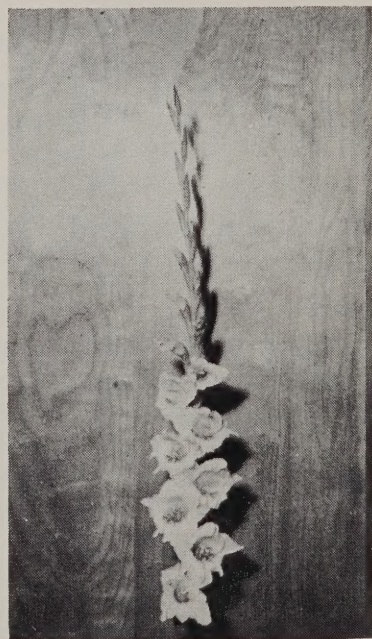

1958 NAGC Trial Garden Record --
1 AA, 1 A, 3 B's.

Approved by Hybridizers Guild 1958.

Any size - \$1.00

1 Bulb & 10 Bblts - \$2.50

10 M or S & 100 Bblts - \$15.00

Domino

SUZETTE (Larus '59) 243

Midseason

Medium pink shading lighter to a cream throat on which there is a pointed light red blotch. Florets are lightly ruffled and triangular in form. Very vigorous with spikes standing 50" to 60". Heads run 23" to 26" and carry 17 to 19 buds of which 6 to 9 open at once. Produces a fair number of bulblets that should be cracked for best germination. Per Jay Dittman, "the best pink miniature I have ever grown."

1958 NAGC
Trial Garden
Record - 1 AA,
2 A's, 2 B's.

Approved by
Hybridizers Guild
1958.

1 Bulb & 10 Bblts - \$4.00

SPECIAL

One bulb of each of the preceding 5 miniatures - \$6.00

3 bulbs of each - \$15.00

CATTLEYA (Larus '59) 466

Late Midseason

Medium lavender at outsides of petals shading lighter to pale lavender center with a medium rose red blotch. The beautifully formed florets are of heavy substance and are ruffled, fluted and wide open. The spikes stand 55" or more in the field with flowerheads of 28" to 30". Opens 6 to 9 5½" florets in perfect formal placement. Carries a total of 21 or more buds with good separation. Blooms well from all sizes, with even #6's producing top quality commercial spikes. Reproduction is rapid and it is healthy. Has been shown very little but did win 1st in its class (566 open) at the 1957 Conn. show, and won an award of Merit at

the NEGS show at Boston in 1958. We expect Cattleya to prove a better show glad than Princess.

1 L & 1 M - \$2.50

Bblts - 10/\$2.00

5 L, 5 M, 15 S, 100 Bblts - \$25.00

Larger units on request

BULL MARKET (Fairchild '59) 586

75 Days

This is undoubtedly the largest glad we have ever grown. Spikes from large bulbs stand consistently over 6' high on giant type plants. The color is smokey rose -- while color value may not be of the highest type it is actually much more acceptable than the term "smokey rose" might imply. Flowerheads up to 36" will carry up to 25 buds and up to 9 6½" to 7" florets open at once. While we don't recommend this variety as a commercial, the exhibitor will find it the answer to his prayers. Bulb production is only fair but they grow pretty nearly 100%.

Any size \$3.00

Bblts 10 - \$5.00

BEAUTIBLEND (Fairchild '59) 362

85 Days

This is a tall growing medium size glad. In color it is a blending of light pinks and medium roses -- the overall effect is rose. The florets are rounded, heavily ruffled, and crinkled -- the crinkling is so pronounced that it has been referred to a "carnation type", makes up to 24 buds easily with 8 open and an equal number in color. Head length is about 27" and placement is quite formal. An excellent exhibition type and should make a good cut flower as well, as it is in the upper range of its size class. Very healthy and a good propagator. Henry Wallace has grown Beautiblend on trial and recommends its introduction.

L - \$1.00

M - \$.75

S - \$.50

Bblts 10/\$1.50

1 L, 1 M, 1 S, 100 Bblts - \$3.00

DIVIDEND (Fairchild '59) 415

85 Days

This beautiful Dieppe Sport has appeared in at least three places. The color is ivory yellow with a large red blotch. Spike formation and growth are generally typical of Dieppe. Has been a very reliable, healthy gladiolus and really a very exciting color combination.

Any size \$.50

1 Bulb & 10 Bblts - \$1.00

SNOW GARLAND (Lacey '59) 400

85 Days

The individual florets of Snow Garland are the most beautiful and useful of any white glad we have seen; they are of heavy texture and fairly heavily ruffled. Capable of opening as many as 12 of its 21 buds at once. Flowerheads are of adequate length for any commercial requirements -- 25" to 27". Propagation for us was very heavy. A most consistent producer with never a

misplaced floret. We expect Snow Garland to be a bigger success than Mr. Lacey's, Good Morning. Opening and keeping qualities are excellent.

L - \$5.00 M - \$3.50 S - \$2.00
1 L, 1 M, 1 S, 10 Bblts - \$10.00

CAMPFIRE GLOW (Jack '59) 583 Midseason

A giant salmon Smokey with a striking scarlet blotch and 6" florets. Spikes are 5' tall with a 30" flowerhead and 8 open. A very attractive smokey and an excellent propagator.

L - \$2.00 S - \$1.50 Bblts - 3/\$1.50

ROSE LACE (Jack '59) 362 Early

A medium rose with cream picotee edge and a deep cream lip feathered deeper rose. A medium size, heavily ruffled variety that will be valuable as a cut flower because of its earliness. The spike is nearly 5 $\frac{1}{2}$ ' tall with a 31" head and 10 open.

L - \$2.00 S - \$1.50 Bblts - 3/\$1.50

RUFFLED CHARM (Jack '59) 466 Medium Early

A light lavender somewhat deeper on the edges and a cream throat. Opens 7 heavily ruffled florets on a 30" head that carries 22 or more buds. Excellent placement and taper should make this a good show glad. Its opening ability will make it a very desirable commercial.

L - \$1.00 M - \$.80 S - \$.60 Bblts - 10/\$2.00
10/\$8.00 10/\$6.50 10/\$5.00

LOHENGRIN (Klein '59) 466 87 Days

Easily produces 60" spikes with 30" heads and 8 to 10 of its 21 to 25 buds opening at once. 5" florets are ruffled and usually well placed. Has compiled a good trial garden record as well as a fine show record. Color is excellent -- especially under artificial lighting. An outstanding commercial and exhibition prospect. Healthy and an excellent propagator.

Any size - \$3.00 2 L and 2 M - \$10.00

GENERAL LIST

A. B. COUTTS (Coutts '53) 520 85 Days

A Giant among Glads! Capable of producing perfect exhibition spikes with better than 30" heads and up to 9 $6\frac{1}{2}$ " florets open at once. The color is apricot buff blending to a deep yellow in the throat. Occasionally crooks.

L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80

ANGEL'S SERENADE (White '55) 410

80 Days

We grow fonder of this one each year. If you love beauty, don't be without Angel's Serenade. Opens 6 or 7 heavily ruffled cream-white florets on spikes of adequate stature. If you cut for a Local market, it is an excellent commercial. A good healthy grower. Has no faults that we've been able to discover except perhaps that it spoils one for many of the less attractive varieties.

L - \$.50

M - \$.35

S - \$.25

Bblts 20/\$.50

ARES (K & M '54) 311

75 Days

One of the very best of the 300's and on many Showgrowers' "10 best" list. We had 3 spike grand champ three times this past season. Ruffled cream with a large scarlet blotch. Opens up to 8 in perfect placement on long heads with up to 23 or 24 buds.

L - 10/\$2.00

M - 10/\$1.20

S - 10/\$.80

AVENGER (Pehrson '55) 452

78 Days

Sydney Mode's description reads, "A glistening velvet red with a tiny cream throat. One of the best 1955 releases. An excellent exhibition glad that we highly recommend." We agree. Stock limited.

L - \$.50

M - \$.35

S - \$.25

Bblts 10/\$.50

BEAUTY ROSE (Puerner '57) 462

88 Days

Smooth medium rose sport of King David. Habits are identical to its parent except that it has heavier texture. Looked particularly good from large bulbs. There are some who will not care for the color.

L - \$.75

M - \$.50

S - \$.25

Bblts 10/\$.50

BELLEVUE (Heaton '54) 400

65 Days

White Friendship sport identical to Bow Bells, Confession, et al. A truly wonderful glad in every respect.

L - \$.40

M - \$.25

S - \$.15

Bblts 15/\$.50

BIRD OF PARADISE (Sommers '54) 510

80 Days

While we don't generally care for the normal run of "oddities",

Ares

this one has always intrigued us. Wide open florets will measure as much as 8" across. The color is pinkish cream. Not for the exhibitor but a "must" for those who are arrangement minded. Any size - \$.35

BLUE PETER (White '56) 478 100 Days

Probably the best of the large dark blues. Grows tall and much straighter than Salman's Sensation. Opens 8 on long 25 bud spikes. Color is deep violet without too much of the muddiness usually found in the blues.

L - \$1.25 M - \$.75 S - \$.50 Bblts - 10/\$.75

BLUE SMOKE (Rich '57) 586 80 Days

Doc Eppig calls this "the only smokey I ever liked". Heavily ruffled mulberry blue with a throat blotch of smokey salmon. Our large bulbs produced 30" heads with 21 to 23 buds that were really out of this world. If you can possibly spare the price, don't overlook Blue Smoke.

L - \$1.00 M - \$.75 S - \$.50 Bblts 10/\$1.00

BOW BELLS (Medford '57) 400 65 Days

Complete description appears under White Friendship. While we have maintained separate stocks of Bow Bells, Bellevue, and White Friendship, they are identical in every respect.

L - \$.40 M - \$.25 S - \$.15 Bblts 15/\$.50

BRIGHT FLAME (Jack '56) 536 83 Days

Clear, bright scarlet that opens 8 giant ruffled florets on an 18 bud spike. While the spike is well proportioned, it could stand a bit more head length.

L - \$.30 M - \$.20 S - \$.10 Bblts 25/\$.50

BROWN LULLABY (Pazderski '57) 490 88 Days

A beautiful and distinctive glad that causes a sensation wherever it is shown. We bloomed Brown Lullaby in fair quantity this past summer and liked it better than ever. Number 1 in its class in the 1958 Symposium. The color is light Mahogany brown, with a red feather in the throat and a silver edging around the petals. A rapid propagator. If the heads were a bit longer it would be about perfect. Opens up to 11 of its 19 buds at once.

L - \$.75 M - \$.50 S - \$.25 Bblts 25/\$.50

CAMPANILE (Fischer '56) 466 100 Days

Very tall growing blue-lavender with a clean white throat. Opens 8 lightly ruffled 5" florets on heads of 30" or more. A beautiful color that is bound to be a success both commercially and

on the show bench. Blooms well from any size. Does not make large bulbs readily.

L - 10/\$2.00

M - 10/\$1.20

CARVED IVORY (Fischer '56) 310

80 Days

One of the most beautiful varieties on our list -- and an excellent show glad as well. Opens 7 of 17 buds on well proportioned heads. The color is a warm cream and the ruffling is exquisite. Really grand!

L - \$.35

M - \$.25

S - \$.15

Bblts 25/\$.50

CHAMPION (Ficht '57) 410

85 Days

So far Champion hasn't been the easy growing glad we'd like it to be. Foliage of this variety tends to turn yellow, much the same as does Patrol's. With a little extra care and attention, however, it will make a long head and open 10 of its 21 to 23 buds. Certainly worth a try.

L - \$1.00

M - \$.75

S - \$.50

Bblts 10/\$.75

COLUMBIA (Roberts '51) 411

86 Days

We discarded Columbia several years ago because we couldn't seem to keep it healthy. We now have, however, a small stock of what we consider to be a completely healthy strain. In two years we haven't lost a single bulb. Cream with a rose halo, makes a 28" head with 8 of its 21 buds open at once. One of the most beautiful varieties on our list.

L - \$.35

M - \$.25

Bblts - 15/\$.50

CONGO (Lins '56) 554

90 Days

Heavy textured black red considered by many to be the best in its class. Sidney Mode's NAGC Bulletin article rates Congo best of all black reds for the 3rd straight year. Still quite scarce due to an accident in 1957 when a large part of the originator's stock was lost in the mail. Opens up to 8 with an equal number in color on a 23 bud head.

M - \$1.00

S - \$.50

Bblts 10/\$1.50

CONNIE G (Woods '48) 510

80 Days

Connie G was really at her best this past season -- apparently she loved the cool, wet weather. Our selected stock is still quite limited but we hope to have enough to supply the demand. Large bulbs will be supplied as long as they last.

L or M 10/\$2.00

CORAL ACE (Bunn '52) 532

85 Days

The best of the Burma sports so far -- it consistently out-

performs its parent. An ideal exhibition type in soft medium Salmon with no flecking. Habits similar to those of Burma except that it opens much better in water.

L - 10/\$2.00

CORAL ROSE (Harris '57) 462

85 Days

Light rose with some deeper lines in the throat. A giant that is capable of going all the way to the court of honor. Opens 8 of its 22 buds on heads that go 30" or more. Heavily textured and ruffled.

L - \$1.00 M - \$.75 S - \$.50 Bblts 10/\$1.00

CORONATION (Murray '56) 440

88 Days

Coronation is in our opinion the most beautiful of the Tivoli shade of pinks. Opens 7 of its 21 buds on heads of 27". It requires a little special attention to get the best from this variety but the results are well worth the trouble. Opens well when cut.

L - \$.75 M - \$.50 S - \$.25 Bblts 10/\$.50

COUNTESS (Larus '57) 440 80 Days

Based on the past season's performance Countess is the most underrated glad in our list. We had dozens of ideal exhibition spikes, and its commercial possibilities are glowing. Produces 28" to 36" heads and can open up to 9 of its 23-25 buds. Color is light pink with some cream in the throat and florets are ruffled and of heavy texture. Our young stock is just raring to produce some fabulous spikes for you.

L - \$.50 M - \$.40 S - \$.25

Bblts 15/\$.50

CRONUS (Rupert '58) 326 90 Days

Medium size true orange with a deep cream to light yellow throat. Opens 7 or 8 on long heads of 21 or more buds. Blooms almost equally well from all sizes. Jim Sebesy considers this among his top 10 show glads. Although in the same class as Tigertone they are quite different. Healthy and a good propagator.

L - \$2.00 M - \$1.50 S - \$1.00

Bblts 10/\$1.50

Countess

DARK BRILLIANCE (Puerner '56) 454 88 Days
 Identical in every way but color to King David from which it sported. The color is velvety black red. With 8 to 10 of its 23 buds open at once, Dark Brilliance will be a top contender just as soon as sufficient stock is grown. We have a very large supply of beautiful #1's and Jumbos. Try it! You won't be disappointed.
 L - \$.50 M - \$.35 S - \$.25 Bblts 25/\$.50

DIMPLES (Rohrbach '58) 340 85 Days
 About the most beautiful glad we have ever seen, and it will also win its share of ribbons -- we understand that Dimples was 2nd day champ at the big Michigan State Show. The color is a beautiful pure pink with an alabaster throat. Flowerheads are of moderate length and carry 17-19 buds of which 7 will open at once. Texture and ruffling are very heavy. Healthy and a good producer of jumbo bulblets.
 L - \$.75 M - \$.50 S - \$.25 Bblts 10/\$.75

DIRECTOR (Roberts '56) 464 95 Days
 A deep brownish ruffled rose that continues to perform well. Our large bulbs produced as many as 28 buds with 11 open. Placement is formal -- an ideal exhibition variety. We have seen flecking in the past, but had none in 1958. Plant it early and it'll give the top varieties a run for their money at the shows.
 L - \$1.25 M - \$.75 S - \$.50 Bblts 10/\$.75

FAIRY BEAUTY (Jack '58) 360 78 Days
 A beautifully ruffled light rose, shading to light lavender on the edges of the petals, with a cream throat. Grows up to 63" with 22 buds of which 9-10 will open at once. A fine exhibition and cut flower variety. Rapid propagator with good bulblet growth.
 L - \$1.00 M - \$.75 S - \$.50 Bblts 10/\$1.00

FIRECRACKER (Klein '57) 536 75 Days
 Last summer we bloomed Firecracker in quantity for the first time from large bulbs -- it was sensational! Everything about it was tops -- color, texture, ruffling, good heads, plenty open, a real beauty. Color is a bright firecracker red and it opens seven 5½" florets on 28" 21 bud heads. Best in its class by a mile!
 L - \$.75 M - \$.50 S - \$.25 Bblts 10/\$.50

FIREFLAME (Rich '58) 436 75 Days
 Brilliant orange scarlet, with ruffled florets. Opens 8 of 22 buds with most of the rest in color. Heads run 25"-27" and attachment and facing are good. Said to open well when cut tight although we haven't tested it.
 M - \$.75 S - \$.50 Bblts 10/\$1.00

FLORADORA (Kydd '57) 410

85 Days

Floradora has been a big winner in the Canadian shows -- as yet it hasn't gotten around much in the East. Vigorous plants produce tall spikes with long 24 bud heads and 8 open. Placement is good and the color, cream with some faint red lines on a deeper cream throat, is passable. Florets are lightly ruffled. Growth from bulblets is excellent.

L - \$1.25

M - \$.75

S - \$.50

Bblts 12/\$.75

GARNET RUFFLES (Maynard '53) 352

85 Days

A very fine deep crimson with a velvety finish. Capable of opening nine on a long well proportioned head that will carry 21 or more buds. A near perfect spike of Garnet Ruffles was Reserve Champion at the N. J. State Show last summer.

L - 10/\$2.50

M - 10/\$1.50

S 10/\$1.00

GARY (Harris '57) 414

75 Days

Tall, rugged grower from all sizes including bulblets. Grows to a height of 55" and opens 8 of 21 buds on heads of good length. Has good keeping qualities and looks fresh even after a day in the hot sun. Makes very clean looking bulbs. We recommend that you give Gary a trial.

L - \$.75

M - \$.50

S - \$.25

Bblts - 10/\$.50

GEM STATE (Roberts '57) 343

95 Days

Gem State is almost a sure winner if you can bloom it early enough. Opens up to a dozen of its 25 buds or more. The color, medium pink with a white lip, is not as clean as we'd like it, but passable. Ours bloomed last summer after everything else in the field was through and we really did enjoy it.

L - \$1.50

M - \$1.00

S - \$.60

S - \$.15
Bblts 25/\$.50

GOLDEN SUNSHINE (Fischer '57) 416 90 Days

Spikes of Golden Sunshine stand 5 feet tall on as husky a plant as you'd ever want to see. Opens 8 heavy textured florets in formal placement on heads of 21-23 buds. The clean deep yellow color is superb.

L - \$.25 M - \$.20

Golden Palomino

GOLDRUFF (Palmer '53) 316

85 Days

Heavily ruffled buffy yellow. All in all an excellent variety

for either show or the home. The heads are not as long as those of Golden Boy but are quite adequate -- particularly good in 3 spike competition where character is more apt to be recognized.
L - 10/\$2.00

GOOD MORNING (Lacey '54) 560

85 Days

An extremely vigorous glad with a very definite commercial future. Makes long flowerheads with 8 of 19 buds open and 7 more in color. In wet weather it tends to show its rose halo as heavy flecking. In dryer weather it comes clean as a whistle. A more colorful Corona type with a soft rose throat. We can quote excellent prices per 1000 for #5's, and #6's.

L - 10/\$1.50

M - 10/\$1.00

S - 10/\$.60

GREEN ICE (Barker '57) 404

75 Days

By far the best green on the market. Has won several grand champs in New England. Makes long stretchy heads of 30" with up to 23 buds and 8 to 10 open. While the foliage yellows early, the bulbs dig clean and it appears to be healthy. About the color of Lime Ice.

L - \$.75

M - \$.60

S - \$.50

Bblts 10/\$.50

GREEN WOODPECKER (K & M '58) 305

70 Days

We have grown this variety only from bulblets but blooms from these plus those we've seen at the shows have impressed us. Color is lime green with wine red blotches on the lower two petals. Makes heads of 27" or more with 7 or more of its 21 buds wide open. Petals are fairly heavy textured but rather plain. A definite contender in the 300 division.

M - \$1.50

S - \$1.00

Bblts 10/\$1.50

GUNSMOKE (Fischer '57) 483

80 Days

This is one of the best of the smokies. The color, while classed as smokey salmon, is actually a light brown and is usually clean. Opens up to 8 on a 20 bud head of better than average stretch. Grows well and is healthy.

L - \$.35

M - \$.25

Bblts 20/\$.50

HARRISBURGER (Mikle '53) 552

95 Days

When grown from #3 or #4 bulbs Harrisburger is a very satisfactory glad. Its color is, to our way of thinking, the best of the reds. Makes long spikes with 7-9 open. Because of its inability to perform from larger bulbs we are offering Harrisburger only in Medium sizes.

M - 10/\$1.20

HEARTS IN SNOW (Van Voorhis '56) 501 100 Days

Snow white with a large bright red blotch -- just about as eye-catching as any glad could be. Heads are 27" with six 5½" ruffled florets open. Spikes are tall and straight and the plant is vigorous and healthy. Plant early if you plan to show it. Van's best to date.

L - \$1.00 M - \$.75 S - \$.50 Bblts 10/\$1.00

HILLTOPPER (Fairchild '55) 450 85 Days

Light red with white lines running down the midribs. Opens 8 lightly ruffled florets in formal placement. Large bulbs will produce 30" heads with up to 25 buds. Bulblets germinate slowly but eventually make good growth. Requires a little extra care to keep it healthy and, therefore, probably out as far as commercial possibilities go.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00 Bblts 25/\$.50

HIT PARADE (Lins '57) 368 70 Days

Clean deep lavender with a lighter throat. Nicely ruffled. Opens 8 on a long 28" head with plenty of buds. Should be a good local commercial as it is pretty close to 400 size. An easy grower and a tremendous propagator.

L - \$.60 M - \$.40 S - \$.20 Bblts 10/\$.50

INNOCENCE (Fischer '57) 460 70 Days

A very beautiful light rose pink that is at its best under artificial light. Produces tall spikes with long cutting stems that will sometimes develop waves as a result of dropping in the hot sun. A strong commercial demand is developing for Innocence.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00 Bblts - 20/\$.50

JUBILEE (Flad '55) 411 80 Days

Probably the most beautiful of all the Corona type glads. Nine open on a 23 bud spike is not at all uncommon. Heads are plenty long but cutting stem tends to be a trifle short. Spikes sell on sight. A good propagator.

L - \$.50 M - \$.35 S - \$.25 Bblts 15/\$.50

KERRY DANCER (Butt '55) 337 70 Days

An outstanding performer -- even small bulbs produce nice spikes. Large bulbs will make 17 bud spikes with as many as 8 open. The color is striking -- bright scarlet with a peppered yellow throat. Florets measure about 4". Makes plenty of large bulblets that bloom and make good sizes.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00 Bblts - 25/\$.50

KING DAVID (Carlson '51) 570

85 Days

Still the undisputed ruler of its class! We have an excellent supply of jumbos specially grown to give you that grand champ. Opens 10 of 25 buds on 30" heads. Florets are ruffled and winged. Color is rose purple.

J or L - 10/\$2.00

KING'S RANSOM (Rice '58) 414

95 Days

Flowerheads from large bulbs will run 30" with 8 of its 21 to 23 buds open. Color is light yellow and the florets are lightly ruffled. Compiled an excellent record in the Ohio area as a seedling and rated among the top 10 1958 introductions in the NAGC Symposium. At its best in hot dry weather. Foliage habits are not the best as leaves tend to bend over and thus become susceptible to infection. Stock limited.

L - \$.75

M - \$.50

S - \$.25

Bblts - 10/\$.75

LARCHMONT (Woods '56) 400

80 Days

A pure white of great beauty! Makes long heads of 28" and opens up to 8 or more ruffled, fluted and needle point florets -- total bud count is about 21 to 23. Susceptible to botrytis but otherwise fine. Seedling champ at the '55 Central International.

L - \$.50

M - \$.35

S - \$.25

Bblts - 15/\$.50

LAVENDER BLUE (Henderson '53) 576

80 Days

Pale lavender blue sport of a tall strain of Eliz. the Queen. Has done well for us. Opens 7 to 9 of its 21 buds on heads of 27". Has no competition in its class. We always sell out of this variety.

L - 10/\$2.00

M - 10/\$1.50

S - 10/\$1.00

LIBERTY (Larus '53) 432

90 Days

One of the greatest exhibition varieties of all time. J. Howard Cook rates it #1 on his list of 10 best. Easily produces 30" flowerheads with up to 25 buds and 10 open in perfect placement. The color is bright orange salmon and florets are plain petaled. Stock continues to be in short supply.

L - \$.50

M - \$.40

S - \$.25

Bblts 10/\$.50

LORELEI (Howell '55) 510

80 Days

Appears on almost everyone's "Best 10" list. Makes spikes with heads up to 36" and opens 7 to 9 of its 17 to 21 buds with most of the rest in color. We've had more grand champs with Lorelei than any other variety we've grown. Although classed as cream, most florists accept it as white.

J or L - 10/\$2.00

M - 10/\$1.50

S - 10/\$1.00

LORI-DEE (Harris '54) 460 90 Days

A far better commercial than Traveler -- in about the same color. Makes very tall spikes with 7 of 21 or more buds open -- does this even from #4's. When pushed, florets will measure $5\frac{1}{2}$ to 6". Keeps well, opens well, and is a terrific propagator.

L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80

MARCO POLO (Harris '57) 511 85 Days

Another Harris giant. As glads go this one is about as homely as they come but apparently some judges still don't pay attention to color -- so you better have it as a safety factor. Makes ideal exhibition type spikes opening 8 on long heads with plenty of buds.

L - \$1.00 M - \$.75 S - \$.50

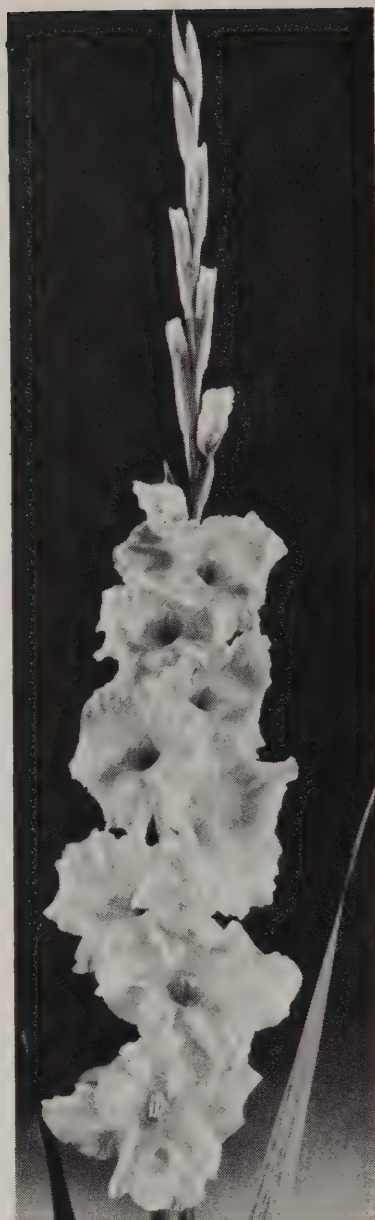

Bblts - 10/\$1.00

MAYDAY (Roberts '56) 443 83 Days

In our opinion, one of Roberts' finest. The color is medium pink with a large clean throat and lip petals that are edged pink. Heavily ruffled and of heavy texture. Sometimes has a loosely attached first floret. Opens 6 to 8 on plants and heads of medium length. A real beauty that should be in everyone's garden.

L - \$1.25 M - \$.75 S - \$.50

Bblts - 10/\$1.00

Lorelei

MERRY MELODY (Lacey '58) 532

A deep pink, and deeper pink feathering on an inconspicuous deep cream center. Has the form and growth habits of Picardy but is darker in color. Opens 6 or 7 and does particularly well in hot, dry weather. We have a very nice stock of this variety -- all bulblet grown -- and would be glad to quote quantity prices to interested commercial growers.

L or M - 10/\$2.00

Bblts - 25/\$.50

MIKE SHERMAN (Woods '58) 410

80 Days

Light cream with a large clear deep golden throat. Opens 8 ruffled florets on a head of 28"-30" with 7 in color and 7 green. Spikes stand 5'. Blooms well from all sizes. We saw only a few

spikes but it really looks good. Much prettier than the banker of the same name.

L - \$2.00

M - \$1.50

S - \$1.00

Bblts 10/\$1.00

MRS. MABEL MARKWOOD (Puerner '57) 501

70 Days

An enormous pure white with some lavender pencil lines in the throat. We had dozens of first class show spikes last summer. Opens 9 6½" florets in formal placement on a head of 30". Will carry up to 25 buds. Spikes are straight as an arrow and the plant is healthy and vigorous. A real show glad.

L - \$.50

NEW SNOW (Jack '58) 400

80 Days

In our opinion this was one of the top 1958 introductions -- we considered it a much improved Snowdrift. The heads are longer, the placement better, the florets wider open, and it lacks the pink blush that Snowdrift gets. Opens 8 to 10 of 24 buds on a 30" head. Florets are heavy textured and ruffled. The color is clean white with some cream in the throat. We advise that you get in on this one early.

L - \$1.00

M - \$.75

S - \$.50

Bblts 10/\$1.50

OSCAR (K & M '58) 552

85 Days

We have seen this only from bulblets so we quote from the introductory presentation. Clean velvety deep red with a peppering of cream in the throat. Spikes stand 65" with 30" heads and 8 open. 6 1/4" florets are plain petaled. Rated as a double A commercial by Ohio test garden and A for exhibition purposes.

L or M - \$3.50

Bblts 10/\$2.00

New Snow

PACEMAKER (Jack '58) 442

85 Days

A ruffled medium pink, shading lighter to the center with a cream lip. Makes tall spikes with 22 buds and 9 or 10 open. We bloomed only a few bulbs of this so can only quote from the originator's description.

L - \$1.00

M - \$.75

S - \$.50

Bblts - 10/\$1.00

PARTY RUFFLES (Rich '57) 410

85 Days

Very heavily ruffled blush pink. Has as heavy texture as any

glad we know. Makes heads of moderate length with 8 of its 21 buds open at once. Very heavily ruffled. Extra fancy.
L - \$.75 M - \$.50 S - \$.25 Bblts 10/\$.75

PAUL BUNYAN (Melk '55) 540 85 Days
Our stock of Paul Bunyan was 100% consistent last year. Produces 3 foot heads with 10 of its 25 buds open. Florets run up to 7" across and are ruffled and needle point. Texture is heavy. Color is light to medium pink.
L - 10/\$2.00 M - 10/\$1.50 Bblts 25/\$.50

POLAR BEAR (Evans '58) 500
Although the high price tag limited its distribution last year, Polar Bear came very close to the top of the list of 1958 introductions in the NAGC Symposium ratings. Had a fabulous record as a seedling with at least 6 championships. Rated AA for exhibition by the Ohio-Pa. test program. Pure white with somewhat needle point and recurved petals. Makes tall plants with 30" heads. Carries as many as 28 to 30 buds with 10 open. Makes husky plants and appears to be healthy.
M - \$3.00 S - \$2.00 Bblts 10/\$4.00

PRINCE (Flad '54) 485 80 Days
Prince is an outstanding spike maker and an excellent color. From large bulbs it will open 9 of 24 buds with a head of 30". Florets are nicely ruffled and wide open. It will, however, fade if left in the sun and the color will peel under adverse conditions. Particularly good in 3 spike competition.
L - 10/\$2.00 Bblts 25/\$.50

PRINCESS (Larus '53) 466 90 Days
The leader of the lavenders, in the latest Symposium ratings, in both commercial and exhibition groups. When pushed it will produce a 30" head with 8 to 10 of 23 buds open at once in perfect formal placement. A winner of several grand championships each year.
L - 10/\$2.00 Bblts 50/\$.50

PROFILE (Flad '58) 461 85 Days
We are not sure that this one has even been introduced -- however, we first purchased stock in 1958. We first showed Profile as a seedling in 1957 when it caused a mild sensation at the Mt. View seedling show -- it was rated "A" and won "Best Seedling". The color is in the same range as Edgewood and it has a large cream yellow throat. Florets are of extremely heavy texture and are lightly ruffled, wide open and very tightly attached.

Opens 7 of 21-23 buds on a head of 27". A very vigorous grower. One of our top favorites. We hope we have enough stock left to show it in 1959.

Any size - \$3.00

Bblts 10/\$3.00

PROSPECTOR (Leffingwell '53) 414

85 Days

An outstandingly beautiful yellow with an amber throat. Far ahead of its nearest rival in both the commercial and exhibition symposium ratings. For us it has been our top yellow cut flower, but it has never quite reached the necessary proportions to make it a serious show contender. A Blue ribbon winner only.

L - 10/\$2.00

PURPLE BURMA (Boewe '55) 570

85 Days

Another good Burma sport that produces a spike similar to that of its parent. Well grown spikes will beat anything in its class including King David. Opens 7 to 9 very heavily ruffled medium purple florets on a 19 to 21 bud spike. We have had heads in excess of 30". Opens poorly after cutting.

L - 10/\$2.00

RADIANCE (Butt '42) 350

70 Days

Our stock of this top 300 size glad is descended from J. Howard Cook's selected strain. It is 100% healthy as it grows here. Radiance produces perfectly balanced spikes with 7 open in very formal placement with ideal taper. We hope we have enough to satisfy the demand -- healthy stock is scarce.

L - 10/\$2.00

REDCOAT (Jack '57) 450

85 Days

Rated high on the list of best Recent Introductions -- Mike Sherman, recent president of NAGC, rates it the top red and says "it lasts forever". Opens eight, in much more formal placement than the picture would indicate, on long heads with as many as 25 buds. A vigorous grower from all sizes and an extravagant producer of medium size bulblets. Many of our top commercial bulb producers have already invested in Redcoat. We recommend you try it for either show or commercial use.

L - \$.75

M - \$.50

S - \$.25

Bblts 10/\$.75

100/\$4.00

Redcoat

REGINA (Palmer '53) 524

80 Days

A grand orange buff that makes a very heavy spike. Opens 6 beautifully ruffled florets in fairly informal placement on a long head. Rates highly with the exhibitor as well as the cut flower man. A really grand spike, shown by Nick Moffett, N. J.'s latest gift to the big-time, was reserve champ at the 1958 Hershey, Pa. show.

L - 10/\$1.50

ROSA (Flad '57) 462

75 Days

An early medium to deep rose, self on the purple side. Blooms early and easily and should make a fine commercial. The florets are nicely ruffled and well attached. Opens 6 to 7 on a 21 bud, 27" head. Not too far from the color of Joyous, the 1959 All American introduction, and undoubtedly a sister seedling. We suggest you try them both.

M - \$.50

S - \$.25

Bblts - 10/\$.50

ROSE SPIRE (Fischer '57) 460

75 Days

We have been sold on Rose Spire since we first bloomed it as a seedling. It is presently being produced in quantity for the Florida cut flower trade. Makes tall straight spikes with 8 open on heads of 30" and plenty of buds. Beautiful bright rose blending to an almost white throat.

L - 10/\$2.00

M - 10/\$1.60

Bblts 20/\$.50

SABLE (Lins '55) 370

90 Days

As it grew for us last summer, Sable is as good as any 300 size glad we've ever grown. We had any number of spikes with heads of 28", 21 to 23 buds, and 8 or more open. The color is clean unmarked purple, and the florets are round, wide open, very heavily textured, and beautifully ruffled. Showed no inconsistency whatever in 1958.

L - \$.35

M - \$.25

Bblts - 20/\$.50

SALMON CRINKLES (Rohrbach '58) 330

75 Days

Introduced with very little fanfare as a companion to its sister seedling, Dimples, Salmon Crinkles rated in the top 10 1958 introductions in the NAGC Symposium. One of the best behaved glads on our list, Salmon Crinkles opens up to 7 heavily textured and heavily ruffled florets on a moderate length head. In the upper range of the medium sizes and should make an ideal cut flower where something fancy is needed. The color is soft salmon and there are a few inconspicuous markings in the throat. An excellent keeper.

L - \$.75

M - \$.50

S - \$.25

Bblts - 10/\$.75

SALMON QUEEN (Schrenck '55) 532

80 Days

We predict that in 1959 Salmon Queen will be the number one glad when total grand championships are tallied! This wonderful glad opens up to 11 formally placed ruffled florets with most of the rest of its 21 or more buds in color. Heads exceed 30" and are perfectly straight. Growth from bulblets is good and health is excellent. Clean medium salmon with a cream throat. We have a large stock of Salmon Queen and are prepared to quote attractive rates per thousand in all sizes to commercial growers.

J or L - \$.75

M - \$.50

S - \$.25

Bblts 15/\$.50

SILVERSTREAM (Robert '56) 400

80 Days

The originator's description reads: "lovely pure white with a light creamy-chartreuse throat. The medium-large florets are beautifully ruffled and fluted, with cream stamens. It opens 8 or 9 at once in perfect formal placement on spikes of moderate height. One of the prettiest white glads."

L - \$1.25

M - \$.75

S - \$.50

Bblts - 10/\$.75

SNOWDRIFT (Fischer '54) 500

80 Days

Snowdrift seems to do best planted either late or early -- in between in the hot weather it is apt to misplace quite badly. Give it a little extra attention and water and you will have a Grand Champ contender. Statistically, Snowdrift has a 30" head, 10 open, tight attachment and vigorous habits. Tends to have a pink flush if allowed to open outside -- this disappears completely when opened indoors.

J or L - 10/\$2.00

SNOW VELVET (Fischer '56) 400

85 Days

A soft velvety white with no other color. Seems to get better each season. Makes immaculate spikes with up to eleven of its 27 to 29 buds open at once. Occasionally a floret will misplace, and there is not enough separation between the bud tips; these faults are not serious however, as born out by the fact that it won several grand champs last year. A rather short cutting stem will handicap Snow Velvet in the commercial field.

L - 10/\$2.00

M - 10/\$1.60

Bblts - 20/\$.50

SPARKLING EYES (Jack '53) 401

85 Days

A beautiful satin finished white with a startling purple blotch -- as spectacular among the whites as Pactolus is among the buffs. Opens 8 well placed florets on a perfectly straight well proportioned head of about 28". We personally prefer Sparkling Eyes to White Sails although the latter will no doubt win more awards.

L - 10/\$2.00

TARGET (Larus '57) 441

82 Days

Certainly one of the top blotched varieties.

The color is a light pink spectacularly blotched light red. Opens 7 on a long 27" to 30" head carrying 18 to 20 buds. Target is finding favor with the cut flower growers as it has displayed a remarkable ability to open well when cut tight. The color is sometimes a little streaked on the rear of the florets when left to bloom in the field. However, this quickly

Target

disappears when brought indoors. Doc Eppig rates Target high on his list of favorite glads and writes, "am anxious to show a basket of this".

L - \$.50

M - \$.40

S - \$.25

Bblts - 15/\$.50

TEMPTRESS (Fairchild '57) 440

80 Days

A pale but most attractive pink that is proving itself one of the all-time great show glads. Although introduced with very limited stock it already has at least 6 grand championships to its credit. Makes tall spikes with perfect exhibition type heads of 30" or more -- we've had them 37" long. Opens 7 to 10 in formal placement with about half the remaining buds in color. Bud count from large bulbs averages about 25. In spite of its limited distribution, Temptress is already pushing Ethereal for the lead in the NAGC.-Symposium light pink class. Although we have a large supply of large bulbs we expect the demand to be heavy -- so order early and avoid disappointment.

L - \$1.00

M - \$.75

S - \$.50

Bblts - 10/\$1.00

TIGERTONE (Fairchild '57) 326

70 Days

The exquisitely formed florets are of unbelievable beauty in

a deep self orange-red. Rated by both Mike Sherman and J. Howard Cook in their list of the ten best recent introductions. Opens 7 or 8 well placed florets on a head of 25" or more with 18 to 20 buds. Although it does not make an overpowering exhibition spike, judges who recognize perfection of form and clarity of color will find it rough to pass it by. One of the real gems on our list.

L - \$.75 M - \$.50 S - \$.25
Bblts - 10/\$.75

TOP HAT (Rich '58) 454 80 Days

The number one 1958 introduction in the NAGC Symposium. As we have grown Top Hat only from bulblets we quote the originator's description, "deep black red, glistening and velvety in color, with a long flowerhead, opening 8 ruffled round blooms. It grows to a height of 54" with a 27" head, 5½" blooms and 22 buds. Florets have excellent substance and placement. Does not burn and is well attached to a strong, unusually straight stem. It is a great performer, especially when grown for showing."

L or M - \$2.00 S - \$1.50 Bblts - 10/\$2.00

TOPPER (Graff '57) 566 80 Days

Has made outstanding spikes for us these past two seasons. Opens 7 6" florets in good placement on heads of 28 to 30" with up to 23 buds. The handle is too short for cut flower use but it is not too difficult to cut it with the 20" length required for exhibition purposes. Health and propagation are good.

L - \$.75 M - \$.50 S - \$.25
Bblts - 10/\$.75

TRAIL BLAZER (Jack '58) 462 90 Days

A unique shade of old Rose. The color is very clear and there is a small cream arrow. Opens 7 on a good head of 20 or more buds.

L - \$1.00 M - \$.75 S - \$.50

Temptress

Bblts - 10/\$1.00

TRAVELER (Flad '52) 460

78 Days

A well tended planting of Traveler Jumbos will produce tremendous exhibition spikes. A wonderful commercial variety when grown under ordinary good field conditions. Florists are particularly happy to get this color. Opens 10 of its 23 buds on heads that are occasionally in excess of 30".

J or L - 10/\$2.00

VERA (Pazderski '53) 466

95 Days

Vera is not the best behaved glad on our list -- too often the florets come misplaced; however, it produces enough really top exhibition spikes to make it a necessity to the show grower. The color is very pure pale lavender. Florets are delicately ruffled and up to 10 will open on a 23 bud spike with head length of up to 30".

L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80 Bblts - 50/\$.50

VIOLET CHARM (Jack '53) 476

85 Days

An outstanding bluish lavender that makes a real ribbon of bloom. Opens 10 or more very formally placed florets on heads of 30". Florets are ruffled and the throats are cream with a violet spear. Best in its class and always a contender for top honors.

L - 10/\$2.00 M - 10/\$1.20 S - 10/\$.80

WITCHING HOUR (Fairchild '54) 471

80 Days

An entrancingly beautiful variety that we rate higher than Emperor. It was introduced on a very limited scale and is still not well known. The color is a translucent light purple with a large clean white throat. Florets are ruffled and wide open. Flowerheads from large and medium bulbs run about 27" and it will open 7 of its 21 buds. Always straight and perfectly healthy. Don't miss this one -- a glad with a real personality.

L or M - \$.50 S - \$.25 Bblts - 10/\$.50

WHITE FRIENDSHIP ('57) 400

65 Days

This pure white sport has been separated by so many that it is difficult to assign the origination credit. Identical to Bow Bells, Bellevue, and Confession. Pristine white with some cream toward the center and a green glow deep in the throat. Similar to Friendship in form, growth, and health. Superior to any of the standard commercial whites. We have an excellent stock and will be happy to quote quantity prices to anyone interested.

L - \$.40 M - \$.25 S - \$.15
Bblts - 10/\$.40 100/\$3.00 Qt. - \$50.00 Pk. - \$300.00

WHITE SAILS (Arenius '54) 401

85 Days

Heavy textured and ruffled white with fuschia throat spears.

Builds an impressive exhibition spike with up to 11 open in formal placement on 20 to 24 bud heads of good length. Always a contender for grand champ. We have an excellent supply of 2 year old #1 bulbs -- the ideal size for exhibition.
L - 10/\$2.00

YELLOW SPIRE (Arenius '58) 414 85 Days

A clear medium yellow Patrol sport with apparently the same exhibition potential as its parent. Opens 9 to 11 5 1/4" florets on a 30" head of 20 to 22 buds. One of the best 1958 introductions and one that will win many grand championships in the future. Plants have a tendency to show some yellowing of the lower leaves.
L - \$2.00 M - \$1.50 S - \$1.00 Bblts - 10/\$2.00

MINIATURE GLADS

ATOM (Hedgecock '46) 237 70 Days

The best known of the small glads. Opens 5 or 6 plain petaled florets on a wiry 15 bud spike. Bright scarlet in color with each petal edged in silver. Just perfect for that small arrangement.
L or M - 10/\$1.20

BAMBI (Pierce '54) 204 80 Days

The most unusual of the standard type glads. Deep chartreuse green with a lighter throat and a dotted brownish orange blotch and an edging of the same color around each petal. Fine for both exhibition and decorative work.
L - \$.50 M - \$.35 S - \$.25 Bblts - 25/\$.50

CANAHRI (Hartman '56) 214 78 Days

Nicely ruffled light yellow capable of opening up to 11 formally placed 3" florets on a head of good length. Bud count runs as high as 23. A wonderful exhibition variety -- in a class with Parfait and Zig-Zag in this respect. Has won many top awards. One of our best.

L - \$1.00 M - \$.75 S - \$.50 Bblts - 10/\$1.00

CHOCOLATE CHIP (Fairchild '58) 290 75 Days

A dark brown glad in the style of atom even to the hairline edging. Opens 6 or 7 in typical miniature placement on a slender stem with a head of about 14". We consider this a big improvement over Spunky, which has been the leader in its class. An unusual color that is useful for decorative work.

L - \$.75 M - \$.50 S - \$.25 Bblts - 10/\$.75

DAINTINESS (Butt '53) 200

65 Days

A very refined heavily ruffled creamy white. Produces straight spikes with 8 open in perfect double row placement. Grow it well and you will have a contender for sectional honors.
L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00 Bblts - 25/\$.50

DEMI-TASSE (Larus '58) 286

75 Days

In a class where there are very few glads in the smaller sizes. The lightly ruffled 3 1/4" florets are a dusty rose brown with a cream throat. The color is clean and most attractive. Opens 5 to 7 on spikes of 16 to 19 buds. Flower-heads average 20" to 23". Particularly useful for decorative purposes but will also win at the shows -- probably the best in its class. Grows well from all sizes.

Demi-Tasse

L - \$.75 M - \$.50 S - \$.25 Bblts - 10/\$.75

EMILY'S BIRTHDAY (Butt '55) 226

50 Days

The Earliest blooming variety we have ever grown. Opens 5 to 7 on a slender 17 bud spike; florets are ruffled and measure 3". The color is salmony orange with a yellow throat. Will fleck under adverse conditions and the color generally is quite variable.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00

FAIRY WAND (Roberts '57) 267

65 Days

Light bluish lavender with a large yellow throat. Rather attractive and in a class where competition is weak. Opens 6 on a straight medium height plant.

L - \$.75 M - \$.50 S - \$.25 Bblts - 10/\$.75

FLASHLIGHT (Roberts '53) 337-237

70 Days

Bright orange scarlet with a large showy yellow blotch. Opens 6 or 7 on a neat compact spike of 17 buds. For us florets are under the $3\frac{1}{2}$ " maximum for 200 size. It is definitely not a 300 type glad.

L - 10/\$2.00

FLIRT (Howell '55) 210

65 Days

Lorelei in Miniature! Opens 5 to 7 beautifully ruffled, cream florets on a 15 bud spike of good overall proportions. The best glad in its class.

Any size - \$.35

Bblts - 15/\$.50

FROLIC (Bork '53) 217

65 Days

Spectacularly blotched small yellow. Opens 5 informally placed florets on a 15 to 17 bud head. Large bulbs produce up to 3 spikes. Excellent for arrangements.

M - 10/\$1.20

S - 10/\$.80

GOLDETTE (Butt '54) 216

80 Days

Goldette is one of Butt's very best. We consider it better than the newer Green Thumb -- it has less extraneous color and actually has considerably more green in it. Heads run about 23" with 20 buds and up to 9 open in double row placement. Florets are ruffled and wide open.

L - 10/\$2.00

M - 10/\$1.50

S - 10/\$1.00

Bblts - 50/\$.50

GREEN THUMB (Butt '56) 214

60 Days

Very nice small greenish yellow with no markings, although it will sometimes show a pink flush if left in the sun. Florets are ruffled and of heavy substance. Opens up to 8 of its 17 or more buds. Very good grower that occasionally goes oversize.

L - \$.35

M - \$.25

S - \$.15

Bblts - 25/\$.50

HEIDI (Harris '56) 214

58 Days

Large bulbs of Heidi produce spikes that are hard to beat. Easily opens 8 or 9 of its 19 buds on a long wiry head. Never any tendency to go oversize.

L - \$.50

M - \$.35

S - \$.25

Bblts - 15/\$.50

LIFE (Butt '56) 252

70 Days

New clear light red with a clean yellow throat -- a miniature ruffled Beacon. Misplaces some, but generally makes a nice 18 bud spike with 5 to 7 open. Very striking.

L - \$.60

M - \$.40

S - \$.25

Bblts - 10/\$.60

PARFAIT (Larus '58) 231

78 Days

Parfait has taken the world of miniatures by storm. Winner of several miniature championships and even a grand championship in its initial year. With a fair amount of stock available this year, Parfait should really go to town! The nicely ruffled florets are a medium salmon pink at the outside shading lighter to a cream throat with a small pale red blotch. Opens 6 to 8 in perfect placement on 18 to 23 bud, 22" to 26" heads. The spikes are as alike as peas in a pod -- as consistent as any glad you'll ever grow.

L - \$.75 M - \$.50
S - \$.25 Bblts - 10/\$.75

Parfait

PINT SIZE (Evans '54) 166

70 Days

The leading variety in its class and division -- its only competition will come from Corvette. Opens 8 formally placed 2" florets on a well balanced little spike. Color is a bit muddy, but, nevertheless, a must for the exhibitor of small glads.

L - 10/\$2.00 M - 10/\$1.50 S - 10/\$1.00 Bblts - 25/\$.50

POLAR CUB (Evans '53) 200

85 Days

An extremely vigorous grower. Makes wiry stems with heads of 22" to 30". Spikes from large bulbs will average about 23 buds with 10 open and 8 in color. Placement is quite formal, normally, but there is apt to be space between the first two or three florets if it is overwatered. Plain petaled and somewhat recurved with no tendency to go oversize. By far the best white exhibition miniature.

L - \$.30 M - \$.20 S - 10/\$1.00 Bblts - 25/\$.50

STATUETTE (Butt '50) 214

65 Days

One of the big winners among the miniatures. Should be

grown from young bulbs as the older ones tend to grow malformed heads. Makes a beautiful little spike of 23 buds with 9 open in perfect placement.

L - 10/\$1.50

M - 10/\$1.00

TOYTOWN (Butt '54) 226

60 Days

Our favorite of all the Butt miniatures. Similar in color to Twinkles but with an unmarked deep yellow throat and no tendency to face up. Basic color is orange scarlet with the yellow throat providing a beautiful contrast. Heavily ruffled.

L - 10/\$2.00

M - 10/\$1.50

S - 10/\$1.00

Bblts - 20/\$1.00

TRINKET (Pierce '56) 214

75 Days

New heavily ruffled light yellow. Flowerheads are well proportioned and have grace and beauty. Trinket appears to be an ideal type for the real miniature fan.

L - \$.75
